

# WOMEN OF COLOR BREAST HEALTH *Study*

The purpose of this study is to understand the differences in mammography screening among different geographic areas and racial groups, as well as the challenges that individuals face in accessing healthcare services. Your insights and experiences are invaluable in contributing to this important research.

The overall time commitment for participants may range from **20 minutes for survey participation** to up to 60 minutes for those also participating in a one-on-one interview.

## Eligibility Criteria:

- **35 years of age or older**
- **African American or Latina**
- **Assigned female sex at birth**

## \$25 Gift Card for Participation
