FORM: Change of Information

Gratitude to Donors and Their Families

Thank you for the interest you have shown in donating your body to the University of Kentucky College of Medicine Willed Body Program. The University of Kentucky is profoundly grateful to anatomical donors and their families for their contributions to medical education and research. Without your generous gift the study and research of human anatomy would not be possible for our students.

The Importance of Anatomical Donations

Anatomical donations are essential to medical education and research. Anatomy courses rely on anatomical donations to give students first-hand knowledge of the anatomical structures of the human body. These courses are among the first, and most important, in the education of physicians, dentists, nurses, physical therapists, and other health professionals.

Anatomical donations are also essential to advanced anatomy studies and research. Physicians in residency programs, practicing physicians, biomedical scientists, and others depend on anatomical donations to support new advancements in medical science.

All members of the medical community who rely on anatomical donations, from students in core anatomy courses to professionals in advanced research areas, are greatly indebted to anatomical donors and their families for making their work possible.

Donors and their families may find comfort in the knowledge that dignity and respect for those who have donated their bodies are maintained at all times. The indispensable contribution that participants in the Willed Body Program have made is fully recognized. The laboratory is restricted and is only authorized for use by students, faculty, staff, and professionals of medical, dental, health sciences, and related professions.

Anatomical Gifts and the Law

The State of Kentucky first enacted legislation governing anatomical donations in 1942, and most recently developed the Kentucky Revised Uniform Anatomical Gift Act in 2010. These statutes reside within Chapter 311 of the Kentucky Revised Statutes. The most recent revisions help ensure that the wishes of the donor continue to be protected. The Willed Body Program is governed by these statutes.

Procedures for Making an Anatomical Gift

A donor may make an anatomical gift of the donor's body to the University of Kentucky as permitted by law. To document the intent to make a gift, the Willed Body Program has created the following attached Donor Authorization forms:

- Donor Authorization for Anatomical Gift
- Authorization for Cremation
- Vital Statistics Information
- Medical History Information

The **original signed** forms must be sent to the Willed Body Program to notify us of the gift. Please retain copies of the forms for your own records. On receipt of the completed forms, a confirmation letter and wallet card will be sent to you to help notify others of your intent to make an anatomical gift.

The completed Donor Authorization form is a legal document of gift that may be amended or revoked. The gift becomes effective immediately upon death but is subject to conditions at the time of death and acceptance by the Willed Body Program.

Notify Family Members and/or Representatives of Intention to Donate Your Body to the University of Kentucky

It is advisable to notify your family, healthcare providers, and legal representatives of your intent to make an anatomical donation so that it may be carried out at the time of your death. The reading of a will or the discovery of the gift form may come too late after death to accommodate your wishes.

There may be a need for you to revoke your donation request. Some reasons may include moving from the state, a change of mind, religious convictions, etc. In such circumstances, you will need to contact the Willed Body Program office directly to begin the revocation process.

The Willed Body Program only accepts registrations from donors residing in Kentucky. If a donor passes while out of state, please refer to the section in this guide titled, "Procedures at Time of Death" for specific information.

Acceptance into the Program

If the Willed Body Program accepts the donation of an individual's body, the family can expect the body to remain in the program for several years. Due to the nature of the study, the Willed Body Program is unable to return a body to the family at the end of the study. All donors of the program will be cremated immediately at the end of the study. The ashes will be dispersed and honored according to the original declaration on the Authorization for Cremation form completed within the original signed donation package.

If the Willed Body Program declines or refuses the donation of an individual, it is the obligation of the donor's estate to make final arrangements. Individuals who are considering body donation may wish to make funeral pre-arrangements with their local funeral director in the event the Willed Body Program is not able to accept the body.

Disposition of Ashes

Following the study, your remains will be cremated. The included form, "Authorization for Cremation," contains the selection for the disposition of your ashes. These are: burial at the University of Kentucky Memorial Burial Grounds at Lexington Cemetery, shipment of ashes to a specific directed recipient, or to be picked up in person from Kentucky Mortuary Services in Lexington, KY.

Interfaith Memorial Service

Each year an Interfaith Memorial Service will be held by the Willed Body Program. Each service will memorialize multiple donors who have decided to donate their body to the program. Faculty, staff, and students attend and participate in this service to publicly express their appreciation for the donors who have been studied. The closest next of kin will be invited to attend this service if they choose to be notified. The Interfaith Memorial Service will not include graveside services.

Financial Responsibility

There is no cost to the donor's estate if the decedent is successfully accepted into the program with the possible exception of charges for transporting the body from the place of death outside of Fayette County to Kentucky Mortuary Services. These possible costs are through our contracted mortuary service, Kentucky Mortuary Services, and should be discussed with them at the time of notification of death. A physical assessment will be conducted prior to transportation. If the decedent is unable to be accepted into the Willed Body Program, the decedent will become the responsibility of the family or estate.

Procedures at the Time of Death

All Donations:

The University of Kentucky utilizes a contracted mortuary service for the acquisition, preparation, and delivery of the donor's body to the Willed Body Program. At the time of death, the family, funeral home, or other representative of the donor should arrange promptly to contact the University's contracted service provider for transportation:

Kentucky Mortuary Services
104 Dennis Drive
Lexington, KY 40503
(859) 278-8501

If death occurs outside of Fayette County, there may be additional transportation charges that are the responsibility of the donor's estate. Family or other representatives should call Kentucky Mortuary Services to coordinate delivery and to discuss any possible transportation charges.

New Donation After Death:

If a person passes without donating their body, a legal representative, or closest next of kin may donate the decedent to the Willed Body Program by completing the "Authorization to Donate Decedent" form. Please contact the Willed Body Program as soon as possible to notify us of the intent to donate and to receive the proper forms needed to expedite the donation. These forms are different than the forms needed prior to death where the donor is the person actually donating their body.

Death Occurring Outside of Kentucky

We recommend that a donor's body be donated to a recipient in the state where death occurs. If the donor is already registered within the program and dies out-of-state, immediately contact Kentucky Mortuary Services to determine if the donation is still a possibility. Several factors may prohibit the delivery and acceptance of the body to the Willed Body Program. For this reason, if a death occurs outside of Kentucky, it is likely the Willed Body Program will not be able to accept the donor into the program due to a delay in the time to receive a donor such as transportation, legal issues, and coordination with a local funeral home at the place of death.

Instructions to Complete the Pre-Registration Donation Package Forms

Please complete all forms included in this package. These forms are mandatory for acceptance into the Willed Body Program and are used to assist us in the donation of your body. Keep the information portion of this package for your reference but send the original completed and signed forms to the Willed Body Program office. It is recommended that you make a copy of the registration forms for your records to make it easier for your family to carry out your donation wishes.

Instructions for Donation Forms

All registration forms must be completed and signed where indicated. Where a witness signature is required, if possible, it is recommended that the closest Next of Kin be used as the witness. This ensures that they will be aware of your intentions to donate your body and that they are being listed as the closest next of kin. None of the forms requires a notary, however, you may still utilize one if you wish.

Form: “Donor Authorization for Anatomical Gift to University of Kentucky Willed Body Program”

This form is required by the state of Kentucky authorizing the University of Kentucky to accept the donation without charge or payment. Please fill this form out completely. It is important to read and understand Part C, “Acknowledgement of Conditions,” and to initial each condition to acknowledge your understanding and agreement.

Form: “Authorization for Cremation and Final Disposition”

This form is used by funeral services to allow for cremation after the study period has ended. You must initial each acknowledgement line in this form and select the option for the final disposition of your ashes. If your disposition option is other than a burial, ensure to let the person you selected to receive the ashes know of your wishes. If the contact information changes for this person, the Willed Body Program will need to be notified as soon as possible. If the information is incorrect, and after multiple contact attempts, your ashes will be buried in our memorial burial grounds.

Form: “Vital Statistics Information”

This information is mandatory and needed to complete and process the death certificate with the State of Kentucky, Office of Vital Statistics. All sections must be completed to the best of your ability. If you do not have the information for an item, write “Unknown” or “None” in that space. Do not leave any blank sections. Please PRINT all information.

Form: “Donor Medical History Information”

The information provided is of great value to the teaching and research of our program. It helps to give an insight into areas of the body that may be of special interest for study. Please complete this information as honestly, accurately, and as detailed as possible. This information, as with all the donor information, remains confidential, and is protected under HIPAA (Health Insurance Portability and Accountability Act) laws.

Form: “Change of Information”

It is not uncommon for information to change over the years from the time you register. It is important to inform the Willed Body Program when this happens. Please use the “Change of Information” form to notify us of any changes. You may contact our office as well to receive a new form. The form must be signed by the donor or authorized representative of the donor to prevent improper changes. Please send this completed form to the Willed Body Program’s office whenever there is a change to any contact information or a change to the closest next of kin.

Donor Authorization for Anatomical Gift to University of Kentucky Willed Body Program

Who is Making this Donation? Living Donor Next-of-Kin Representative Medical/Healthcare POA

Part A: Donor Information

Name: (First) (Middle) (Last) (Suffix) SSN:

Date of Birth:

Street: City: State: Zip:

County: Home Phone: Cell Phone: Email:

Marital Status: Never Married Married Divorced Widowed Maiden Name:

I wish to have my corneas removed and used I DO NOT wish to have my corneas removed and used

Part B: Next of Kin (For purposes of communication during and after the donor's acceptance into the Program) Next of Kin could include the donor's Spouse; Adult Children; Adult Grand Children; Adult Siblings; Other Kin; Legal Representative Please List 2 (If Possible)

(1st - Closest) Name: Relationship:

Street: City: State: Zip:

Home Phone: Cell Phone: Email:

(2nd - Secondary) Name: Relationship:

Street: City: State: Zip:

Home Phone: Cell Phone: Email:

Part C: Acknowledgment of Conditions (Please initial each blank line to indicate acknowledgement of that condition).

- I confirm that I have the legal authority to make this donation.
I understand the decision to accept my body will not be determined until after the event of my death and a physical assessment has been conducted.
I understand that the Willed Body Program will only be responsible for the cost of local county transportation of my remains from place of death to the program; death certificate preparation fee; cremation; return of the cremains within the United States or burial in UK cemetery grounds for all donors accepted into the program.
Transportation costs (if any) outside of Fayette County may be the responsibility of next of kin or my estate.
Transportation arrangements should be made with Kentucky Mortuary Services.
The acceptance of these forms does not constitute a contract with University of Kentucky, University of Kentucky College of Medicine, University of Kentucky Willed Body Program, and/or Kentucky Mortuary Services.
I understand that the Willed Body Program will not perform an autopsy and, therefore, will not release a report to family members pertaining to educational or research findings.
I understand that the exact use of my anatomical gift will be at the discretion of the Willed Body Program. I understand that my body may be used for education, general research, and/or to further innovative technologies.
I understand my body may be used by the Willed Body Program, other health centers, or educational or research institutions approved by the University of Kentucky and the Willed Body Program.
I understand that I will need to contact the Willed Body Program with any information to be updated (contact information, next of kin contact/designation, marital status, etc.) for my donation to remain current.
I authorize my name to be disclosed at the annual Memorial Service.

_____ I understand that I may withdraw from the Program at any time by sending a signed and dated letter to the Willed Body Program. A letter of confirmation from the Willed Body Program will be returned.

_____ I understand that I am responsible for sharing my decision to donate, and all policies of the program with my family.

_____ I understand the following restrictions may prevent the acceptance of my body into the Program:

- Infectious diseases such as HIV, tuberculosis, hepatitis, MRSA, VRE, flesh-eating disease, West Nile virus, and Creutzfeldt-Jakob disease
- Other contagious diseases based on the opinion of the Willed Body Program physician consultant
- Obesity (greater than 250 Pounds) or extreme emaciation (a BMI greater than 30 or less than 16 are limiting factors)
- Suffered a violent death, victim of suicide, or homicide
- An autopsy has occurred
- Amputations, open wounds, or incisions
- Any stage IV decubitus (bed sores)
- Presence of gangrene
- Vital organs removed for transplantation purposes (other than corneas)
- Recent treatment with therapeutic radionuclides
- Constraint in any non-prone position
- Any conditions that would impede proper embalming
- Any other restrictions as outlined in the Willed Body Program Physical Assessment form

Part D: Donor Attestation / Witness

Two (2) different individual signatures are required. If possible, the witness signature is preferred to be the closest Next of Kin. If a Medical/Health Care Power of Attorney (POA) is signing for a donor, please include a copy of the applicable signed POA form.

I have read, understand, and agree to the conditions for donation of my body to the Willed Body Program as stated in Section C. I further understand and agree that final acceptance of my body into the program will be determined at the time of death, and, that the program reserves the right to refuse any donation.

Pursuant to the provisions of laws relating to the Revised Uniform Anatomical Gift Act contained within KRS Chapter 311, I hereby give, donate, grant, and bequeath my body for teaching, research, and therapeutic use of the University of Kentucky College of Medicine. I further understand that at any time prior to my death I may revoke this bequest by written communication, or any other manner specified in law. University of Kentucky College of Medicine reserves the right to decline to accept a bequeathed body for any reason.

By signing below, I am also giving authorization to release my medical records to the College of Medicine and Willed Body Program.

Please initial each blank line to indicate your acknowledgement for each statement. Two (2) different individual signatures are required. If possible, the witness signature is preferred to be the closest Next of Kin.

- I understand the length of time my body may be in the program could last from 6 months up to several years.
I understand that after completion of the program, my body will be cremated. The Willed Body Program is unable to return my whole body to my designated recipient.
I understand the Willed Body Program will arrange for cremation and final disposition of my ashes as I have directed.
I understand the Willed Body Program will, unless otherwise directed, arrange for burial of my ashes at the UK Memorial Burial Grounds located at Lexington Cemetery, 833 W Main St, Lexington, KY 40508.
I understand that any other burial direction, other than the UK Memorial Burial Grounds, must be made in advance, and will become the sole financial and arrangement responsibility of the donor's estate.
I understand that the Willed Body Program will only pay for shipping of my ashes within the United States via Certified USPS Mail. All shipping charges and official documents for other countries are the responsibility of the donor's estate.
I understand the Willed Body Program will attempt to contact the designated recipient of my ashes prior to shipping or pick up. If unable to contact recipient, or if ashes are to be picked up but are not claimed after 90 days of successful notification, my ashes will be buried in the UK Memorial Burial Grounds.

I request the disposition of my ashes as indicated below:

- I wish to have my ashes buried in the UK Memorial Burial Grounds at the expense of the University.
I wish to have my ashes mailed at the expense of the University to the following recipient:

Name of Recipient Address, City, State, Zip Phone; Email Address

- I wish to have my ashes picked up by the following recipient: (If in-person pick up is selected, the following person(s) are authorized to pick up the cremains at KMS within 90 days of notification. UK HealthCare will dispose of any cremains that remain unclaimed after 90 days.)

Name of Recipient Address, City, State, Zip Phone; Email Address

By signing below, I authorize the Willed Body Program to arrange for cremation of my body. I have read this consent form, or it has been explained to me. I fully understand this authorization.
