

UNLOCK THE WORLD OF STATISTICAL PROGRAMMING

Join us for the

BIOSTAT PRODIGY

Summer Programming Workshop

Are you a high school student eager to explore the world of statistical programming and its applications in public health? Look no further!

What to Expect:

Hands-On Learning: Dive into a 5-day immersive workshop on statistical programming using R.

Real-World Applications: Gain insights into the role of biostatisticians and epidemiologists in shaping public health policies.

Create Your Own Shiny App: Culminate your learning by developing a Shiny application for data visualization.

Special Features:

Engage with Experts: Connect with diverse public health professionals.

Program Details:

Dates: June 10th – June 14th 2024

Times: 9:00 am – 1:00 pm. Lunch will be provided.

Location: Tates Creek High School

Transportation: Provided for local students. Select 'Yes' in the application form for transportation needs.

Apply Now:

Why Join?

- Gain valuable coding skills.
- Explore exciting career paths in biostatistics and epidemiology.
- Connect with professionals in the field.

Limited spots available. Apply early to secure your place!
