

# BE A PART OF GROUNDBREAKING ADDICTION RESEARCH!

## WE NEED YOUR HELP!

**Study Purpose:** We are conducting a research study to understand how genetic, environmental, and familial factors influence addiction. While there is no financial incentive, your participation will help us develop targeted prevention and intervention strategies!

### Eligibility:

- Age 18 or older
- Current or former addictive disorder diagnosis
- Knowledge of your family's addiction history

### Your Role:

Share your personal and family experiences of addiction through a 20-25 minute, confidential survey

### Questions ?
