

**Webinar**

# **Reimagine how you study Alzheimer's disease & age related dementia**

**Join us for this webinar highlighting how researchers are using single cell and spatial technologies to study Alzheimer's disease.**

**Using spatial and single-cell technologies to map microglial mechanisms of amyloid- $\beta$  clearance in immunized Alzheimer's disease patients**

**Lynn van Olst, PhD  
Research Assistant Professor  
Northwestern University Feinberg School of Medicine**

**Mapping the spatial immunometabolic responses of microglia to Alzheimer's pathology**

**Kai Saito, MS  
Senior Bioinformatics Analyst  
Sanders Brown Center on Aging,  
University of Kentucky**

**June 26, 2025  
1:00 PM - 2:00 PM ET**
