## Longitudinal and Clinical Experiences - PGY2 (labelled as continuity clinic)

| Type of Experience       | Weekly Structure                                                                                                                                                                        | Number of Weeks | Amount of Time (FTE)    |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|-------------------------|
| Continuity Clinic (1&2)  | Every 5th week, the resident has four 1/2-day Continuity Clinics (during the PM of clinic week).                                                                                        | 10 weeks        | Minimum of 20 full days |
| Subspecialty Clinics (1) | 5 days per week during the AM of clinic week. Designated clinics are selected based on the schedule and resident's educational interests; each week focuses on one subspecialty clinic. | 10 weeks        | 20 full days            |
|                          |                                                                                                                                                                                         |                 |                         |
