

"The Center for Health Equity Transformation (CHET), Lexington Kentucky, is located on the original homeland of diverse Native peoples who arrived over 10,000 years ago. The most recent among them were the Shawnee. Today, Kentucky is still home to over 25,000 Native people representing scores of tribal groups. CHET recognizes the injustices Native peoples have endured. Through this statement, we hope to begin the long process of healing."

Break the Cycle Training Program Applications

Southeast Pediatric Environmental Health Specialty Unit at Emory University and Break the Cycle of Health Disparities, Inc.

Application deadline: October 4, 2021

Website: <https://www.breakthecycleprogram.org/btc16conference>

The Southeast PEHSU and Break the Cycle of Health Disparities, Inc. invites university students from a variety of disciplines to participate in our 16th Annual Break the Cycle of Children's Environmental Health Disparities training program.

This year our theme is Climate Change and its disproportionate impact on children, particularly children living in communities already burdened by inequitable exposure to environmental hazards, structural racism, and other forms of injustice. University students from all disciplines are invited to develop projects that creatively address social, economic, and environmental factors that adversely affect the health of children. Students are required to identify a mentor in their university departments to monitor and guide their projects.

PROMOTING HEALTH EQUITY FOR ALL CHILDREN

College of Medicine Office of Diversity, Equity, and Inclusion Launches Quarterly Newsletter

The Office of Diversity, Equity, and Inclusion is excited to launch the first volume of its quarterly newsletter, The Mosaic.

The Mosaic represents the varied lived experiences in the College of Medicine, our challenges, our changes, and the patterns we create together. Our vision is to cultivate a learning and working environment that is representative, equitable, and welcoming for faculty, staff, and learners across the College of Medicine and contributes to the growth and development of advocates for change.

You can access the newsletter here: <https://odrd.med.uky.edu/news/introducing-mosaic>

Collaboration Column

This weekly column provides space for any of our CHET affiliates to seek out involvement

of others. We request that contributions be no more than 3 sentences and include contact information.

If considered appropriate, contributions sent to chet@uky.edu by Thursday will be included in CHET's Friday digest. Contributions will be run twice, unless requested otherwise.

For more information, please contact the Communication Subcommittee via chet@uky.edu
