

"The Center for Health Equity Transformation (CHET), Lexington Kentucky, is located on the original homeland of diverse Native peoples who arrived over 10,000 years ago. The most recent among them were the Shawnee. Today, Kentucky is still home to over 25,000 Native people representing scores of tribal groups. CHET recognizes the injustices Native peoples have endured. Through this statement, we hope to begin the long process of healing."

CHET's Weekly Communication Digest

CHET Faculty Member Publishes Article on Tobacco Marketing

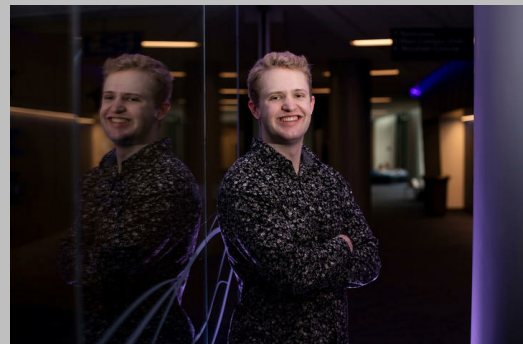

Congratulations to CHET primary faculty member Dr. Shyanika Rose, who was recently recognized in [UKNow](#) for her publication in the [Annals of Behavioral Medicine](#). Dr. Rose's article, "Real-Time Context of Tobacco Marketing Exposure and Community Vulnerability—An Ecological Momentary Assessment Among Young Adults" resulted from a study on young adult tobacco marketing exposure. The study "...showed that young adults from vulnerable communities, those with higher smoking rates, more residents of lower income and more African American residents, were more likely to be exposed to tobacco marketing, especially for flavored products."

Congratulations Dr. Rose!

SPARK Alumnus to Present Research Findings at National Conference

Roberto Obregon Garcia, Jr., a 2020 alumnus of the Students Participating as Ambassadors for Research in Kentucky (SPARK) Program will present findings from his project at the [2021 American Public Health Association annual conference](#) Friday October 22, 2021 at 10:00am. Roberto will co-present with his faculty mentor and CHET Core Faculty member, Dr. Rafael E. Pérez-Figueroa and 2020 SPARK Director Dr. Jerod Stapleton on "Multiple drug use and non-fatal opioid-related overdoses among people who use heroin in a predominantly latinx community of NYC."

You can find more information here:

Congratulations Roberto!

2021 Markesbery Symposium Scientific & Poster Session

November 22, 2021

8:30am - 12:30pm

Lee T. Todd, Jr. Building

Poster Abstract Deadline: November 15, 2021

Registration: <https://tinyurl.com/2021-register-scientific>

The Sanders-Brown Center on Aging is hosting its annual Markesbery Symposium and Scientific Poster Session. The event will also include a poster competition for outstanding work by graduate students and postdocs. The student/postdoc MUST be the first author and submit the abstract under his/her name. The top six abstracts from trainees (graduate students and postdocs) will be selected to present in the scientific session from 10:15-11:15.

This year's program features guest speakers Drs. Frederick Schmitt, Josh Morganti, and Maj-Linda Selenica.

35 Years of the University of Kentucky Alzheimer's Disease Center: Past Discoveries and Future Directions. (45min)

Frederick A. Schmitt, PhD. Professor of Neurology and Director of Outreach, Recruitment and Education Core, ADRC.

Diversity and susceptibility of microglial responses in a mouse model of mixed etiology dementia (15 min)

Josh Morganti, PhD. Assistant Professor of Neuroscience and Sanders-Brown Center on Aging.

Investigating the role of hypusinated eIF5A in AD and related TDP-43 proteinopathy disorders (15 min)

Maj-Linda Selenica, PhD. Assistant Professor of Molecular and Cellular Biochemistry and Sanders-Brown Center on Aging.

Boxed lunches will be provided to all attendees upon departure. **Masks are required and social distancing will be enforced.**

Collaboration Column

This weekly column provides space for any of our CHET affiliates to seek out involvement of others. We request that contributions be no more than 3 sentences and include contact information.

If considered appropriate, contributions sent to chet@uky.edu by Thursday will be included in CHET's Friday digest. Contributions will be run twice, unless requested otherwise.

For more information, please contact the Communication Subcommittee via chet@uky.edu

Study Participants Needed

The University of Kentucky is seeking participants for a research study on women's perceptions and attitudes towards several birth control methods to collect feedback on strategies to communicate about reproductive health. Participants must be 18 to 30 years of age and had been assigned female at birth. The study is expected to take 20 minutes to complete.

Complete the survey by clicking this link (https://uky.az1.qualtrics.com/jfe/form/SV_eIF3oeImoLak5hA?origin=1) or copying and pasting the link address into your web browser.

UNIVERSITY OF KENTUCKY RESEARCH

Researchers at the University of Kentucky are inviting you to participate in a research study. The purpose of the study is to understand women's perceptions and attitudes towards several birth control methods and get feedback on strategies to communicate about reproductive health. The survey will take approximately 20 minutes to complete.

You may be eligible if you:

- Identify as a woman
- Are 18 to 30 years of age

Link to study:
