

July 18-22, 2022

"The Center for Health Equity Transformation (CHET), Lexington Kentucky, is located on the original homeland of diverse Native peoples who arrived over 10,000 years ago. The most recent among them were the Shawnee. Today, Kentucky is still home to over 25,000 Native people representing scores of tribal groups. CHET recognizes the injustices Native peoples have endured. Through this statement, we hope to begin the long process of healing."

## CHET's Weekly Communication Digest

### CHET Faculty Member Publishes Papers in *Tobacco Control* and *Preventive Medicine*

Congratulations to Dr. Shyanika Rose for publishing an article in *Tobacco Control* entitled "Characterising advertising strategies and expenditures for conventional and newer smokeless tobacco products" and another article in *Preventive Medicine* entitled "Centering equity in flavored tobacco ban policies: Implications for tobacco control researchers."

You can access the first article

here: <https://tobaccocontrol.bmj.com/content/early/2022/07/07/tobaccocontrol-2022-057282>

You can access the second article here: <https://www.sciencedirect.com.ezproxy.uky.edu/science/article/pii/S0091743522002225>

### Hunger, Nutrition & Health Listening Session: Kentuckians' Opportunity to Share their Experiences with the White House

Register for one of two listening sessions (both virtual):

Monday, July 25 from 1 – 3 p.m. ET

Monday, July 25 from 6 – 8 p.m. ET

[LEARN MORE AND REGISTER](#)

The White House wants to know Americans' real experiences with hunger, nutrition and health. This meeting will provide insights to the White House national Conference on Hunger, Nutrition and Health about Kentuckians' thoughts and experiences with the following topics:

- Food access

- Food cost
- Good nutrition at home, school and in the community
- Impact of nutrition on obesity, diabetes, etc.
- Supporting farmers
- Pandemic response
- Climate change

The White House national Conference on Hunger, Nutrition and Health is only the second of its kind in U.S. history. Previously, the 1969 White House Conference on Food, Nutrition and Health was informed by '60s social disruption and led to important federal food and nutrition programming. This 2022 conference is a historic opportunity for the voices of many to be heard in addressing inequities in our food chain and security

## UK HDI Disability Mentorship Program Seeking Mentors

The UK Human Development Institute is excited to present the HDI Disability Mentorship Program. The goal of the program is to build inclusive communities and improve quality of life for people with disabilities by matching mentees with mentors who have the life experience, knowledge, and insights to help others grow personally and professionally. Mentors can be anyone with a disability who is willing to share information and knowledge about disability issues and life experiences. As we launch this program, mentees will either be:

- People with disabilities who are participating in a stay at work/return to work program, or
- UK students who want to learn more about disabilities

Mentors will receive training and ongoing support to grow mentoring skills. Mentors may also be eligible for stipends for participation. If you have a disability and want to learn more, please take our quick survey. Taking the survey in no way obligates you to participate in the program.

If you are interested in becoming a mentor, please take the survey here: [https://uky.az1.qualtrics.com/jfe/form/SV\\_2cojoEqRfEEs4ho](https://uky.az1.qualtrics.com/jfe/form/SV_2cojoEqRfEEs4ho)

## Community Engagement Projects RFA

Issue Date: June 13, 2022

Deadline Extended to July 25, 2022

[Complete application & instructions are available in the RFA](#)

The UK Center for Appalachian Research in Environmental Sciences (UK-CARES) is now accepting applications for Community Engagement projects for funding of \$10,000 plus indirect costs (the organization can use their Federal negotiated rate or if they don't have one they can request a maximum of 10% per Uniform Guidance) to provide a service to the public by supporting community-engaged environmental health projects.

Award priorities are consistent with the mission of UK-CARES to contribute to environmental exposure science and the prevention and treatment of environmentally-induced diseases in the Big Sandy, Kentucky River, and Cumberland Valley Area Development Districts.

## Collaboration Column

This weekly column provides space for any of our CHET affiliates to seek out involvement of others. We request that contributions be no more than 3 sentences and include contact information.

If considered appropriate, contributions sent to [chet@uky.edu](mailto:chet@uky.edu) by Thursday will be included in CHET's Friday digest. Contributions will be run twice, unless requested otherwise.

For more information, please contact the Communication Subcommittee via [chet@uky.edu](mailto:chet@uky.edu)
