

The UK Family & Community Medicine's Division of Research

Summer Research Program

Application Form - 2023

All materials are due by 5 pm on Friday March 17, 2023. Late or partial applications will not be considered. Email this completed form and other required submission materials to karen.roper@uky.edu. Fellow(s) will be notified of their acceptance by the first week of April 2023.

Applicant's Name: _____

Applicant's Email: _____

Mentor Name: _____

Mentor's Email: _____

Mentor Department within UK: _____

Note: Your mentor can be any faculty member at UK, so long as they agree to guide you through a project that falls within the broad interest areas of family and community medicine research. These are listed on this application form under the description of the essay requirements, relevant interest areas.

Have you worked with this mentor before? If yes, what was the nature of your collaboration?

APPLICANT REQUIREMENTS:

I am a UK student (medical or graduate) who is in good academic standing.

A letter of support from your identified mentor is required for this application. Check this box if the mentor has been asked for this letter to be sent to karen.roper@uky.edu, and that the due date, March 17, 2023, has been made clear to the mentor.

Along with this form, I have included in my submission a copy of my resume with past research experience(s) and a one-page essay.

This essay should be double-spaced and describe:

1. Your interest in population/primary care–based research. The following areas of research and investigation are broadly reflective of the interests of the DFCM Division of Research. Please indicate in your essay which interests among these, or others, you would most like to gain as an intern. • Translational research (e.g., science in substance use, diabetes, or other disease states along the continuum of basic science discoveries to their translation into practice)
 - Patient-centered Outcomes research
 - Community-engaged research
 - Public health
 - Practice-based primary care
 - Quality Improvement
 - Other studies of specific behaviors or diseases of interest to primary care
2. What activities/experiences make you a good intern candidate?
3. What do you hope to gain and accomplish from this research program?

OBLIGATIONS:

Fellows will have already completed the required CITI training in the protection of human subjects required by the UK College of Medicine prior to starting any research, unless the research is deemed exempt. A total of \$1,800 will be distributed to fellows as timesheets are submitted.

If accepted, Fellows commit to:

1. work closely with their mentor to complete all agreements for the research that are agreed upon.
2. present the results of their research to the Department of Family and Community Medicine department faculty and staff at the end of the program.
3. submit the project for presentation (poster or oral) at the UK Center for Clinical and Translational Science's Spring research showcase or another acceptable research conference for a local or national audience.
4. cite the DFCM research fellowship program in presentations and/or publications that result from the work.

Acceptance of the stipend will be contingent upon fulfilling all obligations agreed to on this form.
